Procedure Date:

## **Scar and Vascular Lesion After Care Instructions**

- There might be some slight bruising lasting a few days after the procedure.
  - If stinging or burning is uncomfortable following treatment, a cool compress may be applied to the skin to relieve this sensation.
  - If crusts, scabs or blisters form, please call our office.
  - Apply ointment (Vaseline, Aquaphor, or antibiotic ointment) until healed.
  - Do not pick at them
  - Report any signs of infection (discharge, pain at site)
  - Use minimum SPF 30 UVA/UVB everyday and avoid unprotected sun exposure to treated area.
-
